

Town Park Pool Project

Construction activities related to a new swimming pool have commenced in Town Park and will continue through mid-June.

The project consists of a new 25 yard 6 lane pool with depths ranging from 4 to 7 feet. The project is the second phase of a three-phased project. The first phase was construction of a new restroom/shower facility, which opened in early March. The third phase will include a separate 1,800 sq. ft. outdoor recreation “zero depth entry” pool with interactive water play structures and a multipurpose program area, which is currently identified for construction in 2017.

Construction areas will be fenced and park users should anticipate construction noise and traffic in this area of Town Park.

The horseshoe pits will be relocated to the southern side of the oval (near the basketball court) in May and the surrounding facilities, including the restrooms, volleyball courts, and tennis courts will be open during construction.

The new pool is scheduled to open to the public on June 15, 2015.

We apologize for any inconvenience and we thank you for your patience during this important facility upgrade.
